

BTEC Level 5 Diploma-Leadership & Mngt for Adult Care (England)

BTEC competence-based qualifications are work-based qualifications that give learners the opportunity to develop and demonstrate their competence in the area of work or job role to which the qualification relates. Learners will develop the knowledge, skills and behaviours to become competent in the area of work or job role. The requirements to be competent are set by occupational standards for the appropriate sector. Pearson has worked closely with the appropriate professional body in the development of this qualification. The qualifications are written in broad terms to enable employers and providers to apply them to a wide range of occupational areas.

It is expected that learners will have qualifications and/or experience in management roles in the health and social care sector in order to register for this qualification. If a learner is completing this qualification as part of the apprenticeship standard for Leader in Adult Care, achievement of level 2 English and mathematics is required, as well as the Care Certificate. For those staff who completed the CIS prior to the launch of the Care Certificate, it is the employer's responsibility to judge where the gaps are for staff to meet the additional standards in the Care Certificate.

- Access to paper-based or e-portfolios to meet the learner's needs
- Resources to aid studying
- One assessor and IQA for the duration of your award
- Face to face meetings
- Email and telephone support
- Observations carried out in your workplace with no interruption to working hours
